

# Reasons to Switch to Cloud Communications

## EASY COLLABORATION

Use advanced collaboration tools to communicate more authentically with your team and your customers.

- Live video conferencing
- Screensharing
- Chat with your team

## NO MORE MISSED CALLS

With our easy-to-use mobile app, your mobile phone becomes your office phone. Incoming calls will always reach you by either your desk phone, cell phone, or WebPhone on your laptop.

## UNDERSTAND YOUR BUSINESS

Our in-depth reports give you a never-before-seen understanding of how your team performs, so that you can optimize your business operations.

## PRIORITIZE EFFECTIVELY

Extra time is an asset you can't buy, but by using the latest VoIP tools you can maximize your time in ways you wouldn't expect!

- Access to all your voicemails with our mobile app
- Visual Voicemail
- Speech-to-Text

## HAPPY CUSTOMERS

Your incoming calls will always be answered by either live person or automated attendant, so that your callers will never hear the busy signal.

- Improve business continuity
- Ensure disaster protection (i.e., a power outage)
